

APPLICATION FOR ORDER TO SELL REAL AND PERSONAL PROPERTY

In the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye.

In the matter of the Estate of J. J. Regan, Deceased.

Notice is hereby given that Ray W. Piercy, Administrator of the Estate of J. J. Regan, deceased, has filed a petition to sell the real and personal property of the above-entitled estate, and that Thursday, January 19th, 1922, at 10 a. m. of that day, in the courtroom of the above-entitled court, at Tonopah, Nye County, State of Nevada, has been fixed by the above-entitled court as the time and place for hearing said petition.

A description of property sought to be sold, consists of real property, as follows: N. W. 1/4 of N. E. 1/4 of Sec. 16, T. 11 S., R. 47 E., M. D. B. M., 50 acres; N. W. 1/4 of N. W. 1/4 of Sec. 21, T. 11 S., R. 47 E., M. D. B. M., 40 acres, together with improvements, including hot springs.

Personal property consisting of household furniture, old bar fixtures, glasses, etc.

All persons interested in the above-entitled estate are notified to be and appear before the above-entitled court at the time and place hereinabove set forth, and to show cause, if any they have, why an order should not be granted authorizing the Administrator to sell the real and personal property, or so much thereof as may be necessary.

Dated: December 30, 1921.
(Seal) L. E. GLASS,
Clerk of Court, Nye County, Nevada.
1317 to 1344.

SCHOOL, NOT JAIL, WILL BE THEIR LOT

(By Associated Press)
WEST PALM BEACH, Fla., Jan. 4.—Illiterate boys and girls under the age of 21 who are brought into municipal court here in future will be sentenced to the School of Opportunity instead of jail as the result of a movement launched by Municipal Judge Joe L. Earman, former newspaper publisher and editor, and backed by the Rotary club and other civic organizations.

The School of Opportunity has been organized along the lines of the usual public school with a board of trustees consisting of Judge Earman, City Manager Carl Riddle and Chief of Police Frank Matthews. Business men have offered to provide suitable clothing for students who otherwise might feel embarrassment because of their attire, and Judge Earman has taken it upon himself to provide textbooks, having placed an order for \$500 worth of readers, arithmetics, spelling and writing books, to which subjects the course of study will be confined.

NOTICE OF ANNUAL MEETING

The regular annual meeting of stockholders of the Mercury Mining Company will be held at the office of the Company, Room 1024 of the Crocker building in the City and County of San Francisco, State of California, on Wednesday, the 11th day of January, A. D. 1922, at the hour of 3 o'clock P. M., for the purpose of electing directors of said corporation for the ensuing year and considering the advisability of selling the company's property or so much thereof as may be necessary to liquidate the company's obligations; and for the transaction of such other business as may come before the meeting.

Dated, San Francisco, Calif., December 27th, 1921.
G. D. ARBOTT, Secretary.
MERCURY MINING COMPANY.
23-61.

Safe, Successful
Each Capsule Contains 50 mg.
Beware of counterfeits

Bet your bottom dollar!

CHESTERFIELDS "satisfy"
—fully and completely
—like a long, cool drink "satisfies" when you're thirsty
—but unlike anything you ever experienced in a cigarette before.

A better flavor, yes; a more pleasing aroma, yes; but more than that, a rounded out "completeness" that is wholly satisfying.

That's how Chesterfields "satisfy."

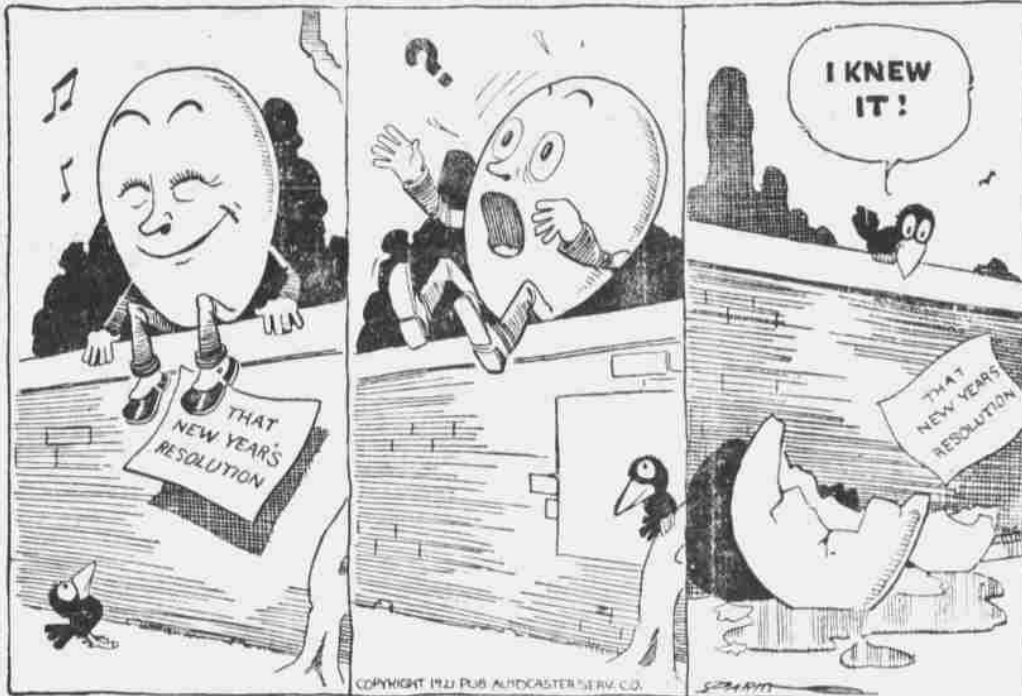

And the blend—that's why Chesterfields "satisfy." A blend of Turkish and of Burley and of the choicest of other fine home-grown tobaccos in a new combination!

They Satisfy
—and the blend can't be copied

HUMPTY-DUMPTY

SHOULD SAVE WITH LUXURY TAX REMOVED

The following statement is issued by the collector of internal revenue, Louis A. Spallier, of the district of Nevada:

"In response to numerous inquiries, taxpayers are advised that certain taxes, among them the so-called 'nuisance' and 'luxury' taxes are repealed, effective January 1, 1922, by the revenue act of 1921.

"Patrons of soda-water fountains, ice cream parlors and 'similar places of business' no longer are required to pay the tax of 1 per cent for each 10 cents or fraction thereof on the amount expended for sodas, sundaes or similar articles of food or drink. The small boy may rejoice in the fact that an ice cream cone does not cost an extra penny. This tax imposed by the revenue act of 1921 is on beverages and the constituent parts thereof and is paid by the manufacturer.

"The tax on the transportation of freight and passengers is repealed, effective January 1, 1922, also the tax paid by the purchaser on the amounts paid for men's and women's wearing apparel in excess of a specified price.

"Taxes imposed under section 904—which under the revenue act of 1918 included the taxes on wearing apparel—are now confined to a 5 per cent tax on the following articles: Carpets, on the amount in excess of \$4.50 a square yard; rugs, on the amount in excess of \$6 a square yard; trunks on the amount in excess of \$35 each; valises, traveling bags, suit cases, hat boxes used by travelers and fitted toilet cases, on the amount in excess of \$25 each; purses, pocketbooks, shopping and hand bags, on the amount in excess of \$5 each; portable lighting fixtures, including lamps of all kinds, on the amount in excess of \$10 each; fans, on the amount of \$1 each. These taxes are included in the manufacturers' excise taxes and are payable by the manufacturer, producer or importer, and not by the purchaser as required by the revenue act of 1918. The manufacturer may reimburse himself, by agreement with the purchaser, by quoting the selling price and tax in separate and exact amounts, or by stating to the purchaser in advance of the sale what portion of the quoted price represents the price charged for the article, and what portion represents the tax.

"The tax on sporting goods is repealed, also the taxes on chewing gum, portable electric fans, thermosatic containers, articles made of fur and toilet articles and musical instruments.

The tax on sales of jewelry, real or imitation, is 5 per cent, and is payable by the vendor. The tax on the sale of works of art—paintings, statuary, art porcelains and bronzes—is reduced from 10 to 5 per cent.

"When payable by the manufacturer or vendor, taxes must be in the hands of the collector of internal revenue on or before the last day of the month following the month in which the sale was made.

Following are forms for making returns and regulations relating to taxes which may be had on application to offices of collectors of internal revenue; manufacturers' excise tax form 728 revised, regulations 47, revised; tax on works of art and jewelry, form 728A, revised, regulations 48, revised; taxes on beverages, form 726A, revised, regulations 52, revised."

WOMEN OF THE EAST SEEKING KNOWLEDGE

(By Associated Press)
CHICAGO, Jan. 4.—A desire for women's higher education is sweeping over the orient, the girls of India, China and Japan are asking for a better preparation for life, according to Mrs. Murray Frame, of Yenching college, Peking, who has just completed a tour of the United States in the interest of better education for women in the orient.

Within the last few years, seven colleges for women have made their beginning in the far east, according to Mrs. Frame. Five of them are arts colleges and two medical, she states.

GOOD RECORD MADE IN 1921 BY AIR MAIL

(By Associated Press)
NEW YORK, Jan. 4.—Civilian flying in the United States was 20 per cent greater in 1921 than in 1920, according to a review compiled for the United States department of commerce by the aeronautical chamber of commerce and made public here.

During the war 1200 airplanes were flown 6,500,000 miles and carried approximately 275,000 passengers, the report stated, basing its figures on authenticated reports to the aeronautical chamber from all parts of the country.

The United States, it is asserted, is holding her own with European countries as far as individual aeronautical effort and accomplishments are concerned.

"The United States air mail service in 1921 made such a record for efficiency on the transcontinental route that it is recognized as a model for civilian aerial transport the world over," the report set forth.

"Letters have been delivered in New York two days after casual mailing on the Pacific coast. The service has an average of 88.82 per cent efficiency, that is, completed trips on scheduled time since it was started in May, 1918. The air mail has during the last year completed its wireless communications system, the 14 stations now having radio plants, three operated by the navy department and the others by the air mail service."

WANT GOLD AS THE STANDARD FOR EUROPE

(By Associated Press)
STOCKHOLM, Jan. 4.—Representatives of the three Scandinavian central banks decided at a meeting just held here that endeavors should be made to re-establish an effective gold metallic standard in Europe, even though it should prove impossible for every currency to regain its former value.

A communique issued after the meeting stated that probably at the present time no country in Europe would be able to return to the gold metallic standard without the cooperation of the United States. The plan that seemed to offer the greatest chance of success was for England and the United States in common to take the first step toward the re-establishment of this standard. When the first step out of the existing currency difficulties had been taken no great time would elapse before other European countries would follow.

GERMANY HAS SENT ENVOY TO UNITED STATES

(By Associated Press)
WASHINGTON, D. C., Jan. 4.—Diplomatic relations between Germany and the United States were resumed officially late Saturday when Carl Lang, charge d'affaires for the Berlin government, presented letters of credence and was received by Secretary Hughes.

REGULAR TRIP ACROSS OCEAN FOR AIRPLANE

PARIS, Jan. 4.—An American firm has just ordered an airplane of the type described by Louis Breugnot, famous French flier and constructor as "an ocean-crossing plane." M. Breugnot recently predicted that these airplanes will be making frequent trips across the Atlantic within two or three years. They are now under construction.

They are expected to be able to fly 24 hours without stopping, at a speed of 180 miles an hour, and to carry 20 or 30 passengers with baggage. This would bring the two continents within a day's travel of each other.

The planes are being planned with huge wings, 6 feet thick, the interior of which will be used for cabins. As described by M. Breugnot, their total weight will be 155 tons, their wingspread 375 feet and they will have 24 motors of 500 horsepower each.
